Fight On State Street Eight Indictments for "Attempted Murder"

An artist's conception (Richard Tedor) of NSPA Stormtroopers jumping out of their van seconds before an ambush. Eight Stormtroopers were subsequently charged with "attempted murder" for simply defending themselves. One JDL attacker was hospitalized in critical condition and required brain surgery. No Stormtroopers were injured.

On December 14th, 1977, eight NSPA Stormtroopers proved once again that the Party is ready and willing to make any sacrifice necessary to bring the message of White Revolution closer to the American people. The scene was the Palmer House Hotel on State street, a historical landmark that survived the Chicago fire and has degenerated to such a degree that it has become the site of the Israel Bonds Committee Award Dinner for the past several years. The wealthiest Khazars meet every year at this feast of ghouls and ritually present their "Man of the Year" aware to whoever they feel has served the cause of Zionism and Jew money in the most obedient and subservient fashion. This honor is usually bestowed on a key political figure. Anyone who wishes to make it in politics in America must do his part to kiss the kosher backsides of top financial Jews and therefore sell out his own nation in the interest of the bandit State of Israel and international Jewish finance. This year's stooge was Chicago Mayor Michael Bilandic, an extreme dullard whose administration thus far has been lackluster at the best, not to mention the usual corruption that has always been the trademark of the democratic politics in Chicago. Also on the agenda that evening was a lecture on how to deal with the growing menace of Nazi activity in America.

The stormtroops left Rockwell Hall dressed in military fatigues with our usual jackboots, swastika armbands and, for head protection, black steel helmets. It was too cold that day to wear our usual brownshirts. We carried picket signs mounted on wooden poles. The signs read "Bilandic is a Jew Stooge," "Israel Bonds are Un-American," and "Why not U.S. Bonds?" The Jewish Defense League had been calling Rockwell Hall for days threatening to kill us if we showed up at the Palmer House. We took these threats with a grain of salt and prepared ourselves for whatever would happen the way we usually do.

Stormtroopers Jedry, Stasik, Gaynor, Sullivan, Coleman and myself piled into our van and left Rockwell Hall at 5 p.m. During

Only weeks after the October 8th street battle in front of the Florissant City Hall (a suburb of St. Louis), NSPA Stormtroopers from Missouri, Illinois and Texas defied city hall and held a public rally, receiving extensive radio, television and press coverage. There was no violence and there were no arrests.

Blood Money for Vietnam?

by Gjvvaldsson

International Political Zionism and American Jewry are again planning another massive assault in the war of attrition against the White Race on the North American continent.

A few months ago we heard over the Jewtube news programs an extensive discussion concerning an astronomical sum of money the US was considering paying to the North Vietnamese. The sequence of events was unmistakable: the Carter administration was sending up another trial balloon.

The whole story seemed rather harmless by the way it was presented to the American people. But that is the purpose of a trial balloon, to see just how big an outrage or how much of a swindle the government can pull off without causing extensive public reaction. The psychology is to tone down the implications of an adverse or negative reaction, while at the same time deploring and rejecting the action and its effects. It's a soft-sell tactic. The object is to prepare the public slowly for an unpalatable dose of treason, which when administered, hopefully, will have little or no visible side effects.

Good old Henry Kissinjew immediately went on national TV and assured the public that the US had absolutely no obligation to pay the Vietnamese the four billion dollars in war reparations they had demanded. Carter then confirmed that by saying that the US most certainly would not pay that amount to Vietnam. The balloon was up. The media knocked the story around for a week or so to test public reaction, then they buried it for a while. Joe Blow American was perfectly confident that the issue was dead and that "his" government was protecting his interests.

With the seed of deception planted, the wheels started to turn. TV publicity was given to the Vietnamese in negotiation with the US treason committee, and, as usual, the enemy was placed in a favorable light. Again demands were made for the four billion dollar tribute to be paid to the victor. The pinkos came through the Jewtube into the American living room with shining faces, well spoken English, expensive suits, and a diplomatic countenance; just like your friendly slant-eyed merchant. By this time the US had established diplomatic relations with these all-American looking Communist butchers. As expected, not a quiver of public indignation.

Phase two: The Richard Nixon document was conveniently declassified by the State Department. We were immediately informed that the Nixon administration had promised four billion to the Vietnamese as a peace offering. Carter then quickly promised that we had no intention of keeping the promise because Vietnam didn't keep its part of the bargain. More balloon psychology. The simple fact is, that the US had obligated itself to pay damages in return for the pinkos not taking over South Vietnam until well after all US troops were removed. That way we would have "peace with honor," and the total collapse of South Vietnam would be off our conscience.

The closing of the Turkish military bases was the same kind of concession, retroactive to the Cuban missile crisis. Such is the nature and outcome of no win wars and American-Jewish diplomacy.

So, step by step, the Carter regime will compromise us into a four billion dollar "foreign aid" program for the Communist Vietnam. And what do we get for our billions? A few mutilated bodies of MIA's and something called "peace with honor!" The

American public never stops to consider the price when they are sold a bill-of-goods, either in pride, dollars, or American blood. Just like the conflict itself, the public is being led down the primrose path again. The Vietnam war has already cost us a treacherous price, and all indications are that we are to pay again! ...And again, and again, and again!

It's time for White Americans to start seeing things objectively. And some of us are getting damn good and tired of being kicked in the teeth over and over again. So let's tell it like it is for a change: First we get the hell beat out of us by a tenth-rate miliarty power; then, instead of bombing these undermen into oblivion with out superior technology, *we surrender!* We are told that we have "peace with honor!" Is *peace* the cessation of armed conflict with continued hostility? And where is the *honor* in defeat? What we got was, robbed of billions of dollars of military and other resources, and over fifty thousand American boys slaughtered on the altar of International Political Zionism. That is ignominious *defeat*, the ultimate *dishonor!* And now our Jewish government is going to

The Government Versus the British Movement

by Michael McLaughlin
(Leader of British Movement)

The Director of Public Prosecutions in Great Britain is a Jew named Silkin and he has, after complaints by the treacherous Race Relations Board, instituted legal proceedings against two British Movement organizers, Michael Cole and George Jones. Their offense: speaking out against coloured immigration, bringing to the attention of Britons that immigrants bring with them disease, poverty and crime and calling for their repatriation.

The Director of Public Prosecutions picked on the British Movement thinking that, as it isn't as well known as it will be in the future, it would lack the resources, financial and otherwise, to fight the case properly and provide him with a much-needed legal precedent so that he could similarly attack other racist organizations and individuals.

Like most Jews, he overstepped himself and got his facts wrong. The British Movement is rolling up its sleeves and engaging the Government and its treacherous agencies in a fight that it will soon wish it had never instigated.

A solicitor and a barrister are fighting the case for the British Movement right up to crown level court and victory is in the air. If victory doesn't come at crown court level, then we have a queen's counsel standing by ready to take the case right up to the House of Lords, which involves the British Movement in a straight legal fight with the "British" Government over the issue of Freedom of Speech.

The Jews will find that they have bitten off more than they can chew and we shall turn the tables on them and turn what they thought would be victory for them into victory for us and we shall use that victory to smash them still further.

No quarter will be asked and no quarter will be given in this fight against Jewry.

The address of the British Movement is:

BRITISH MOVEMENT
95a Chester Road, East
Shotton, Deeside, Clwyd
North Wales
England

make us say we're sorry, and go hat-in-hand with four billion tax dollars more as tribute!

This time the Jews are going too far, and many Americans are starting to see through the fog. How about you mothers, fathers, wives and children of those young men killed in action and MIA's? How long are you willing to support the treacherous Jewish system that used your brave sons as expendable pawns and then would have *you* pay for damages?

A National Socialist Viewpoint

The Presidents

The great English historian, Carlyle, claimed that history is the story of famous individuals. Nowhere is this theory perhaps better borne out than in the history of our country as seen in the biographies of our Presidents. A period of heroism, expansion and freedom characterized America during the first century of Presidents, just as the short period from the Civil War to the First World War was a transition stage from corruption to treason.

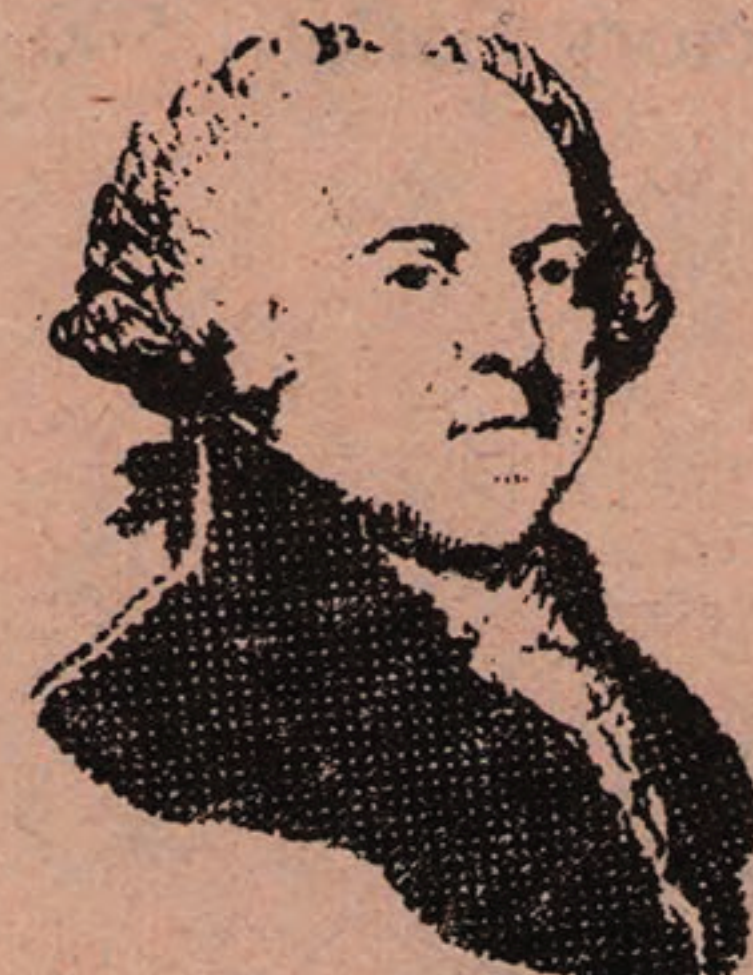

The first Presidents were soldiers, like Jackson and Taylor, revolutionary patriots, like Washington and Madison, and statesmen, like Monroe and Polk. Some, like Jefferson and perhaps Lincoln, were touched with genius. A few were weak, like Pierce, or wrong, like Adams, but all of them were independent leaders to whom the good of the heritage of freedom which is America's unique legacy.

George Washington

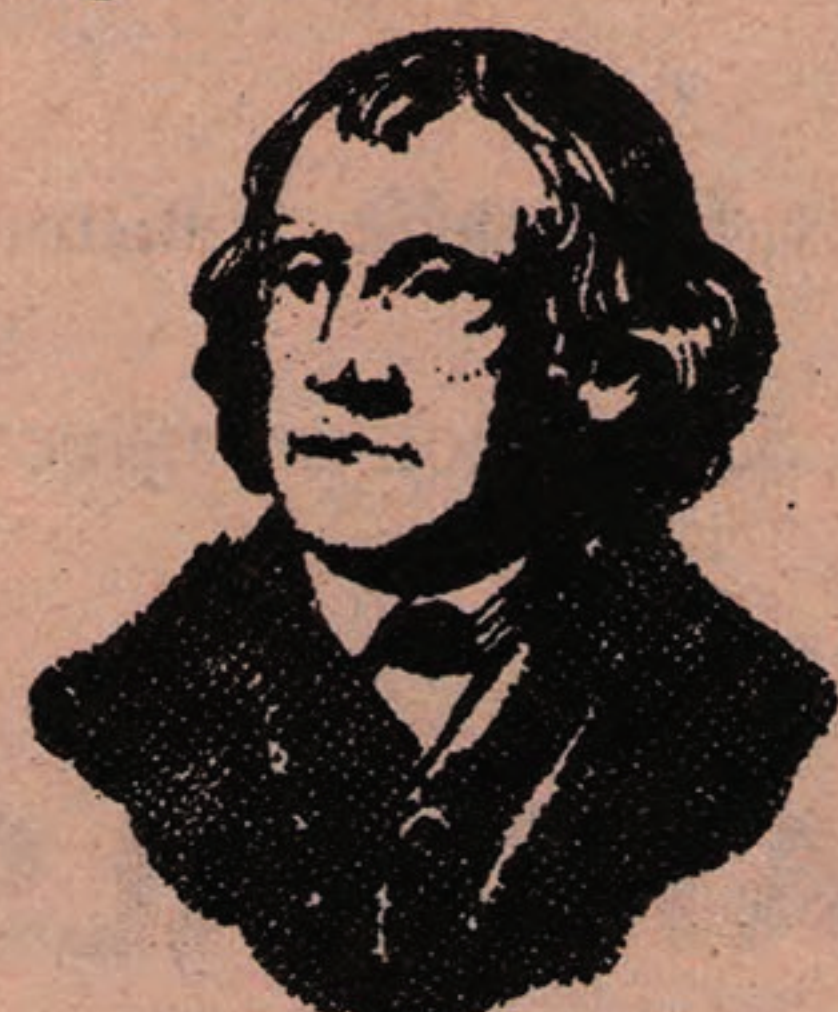

The "Father of Our Country" in the truest sense. Without his unbending will, the War for Independence would surely have been lost. Without his dedication to the principles of free government America would just as surely have slipped back into tyranny. One of the towering figures, not only of the United States but of Western Civilization.

The President is quoted by J. Fredrick Schroeder in "Maxims of Washington" as saying of the Jews: "This tribe of black gentry work more effectually against us than the enemy's worms. They are a hundred times more dangerous to our liberties and the cause we are engaged in. It is much to be lamented that each state long o'er this has not hunted them down as pests to society and the greatest enemies to the happiness of America. I would to God that someone of the most atrocious of each state was hung upon a gallows five times as high as the one prepared by Hamon."

John Adams

It is only a short misstep from freedom to tyranny, as the Presidency of John Adams proves. His "Alien and Sedition" acts were nothing short of dictatorship, imposing imprisonment on anyone who so much as criticized the government. For example, a Vermont congressman was sentenced to four months in prison for calling Adams "pompous" in a personal letter. His term proved what a fragile thing our liberty is - something to be ever guarded.

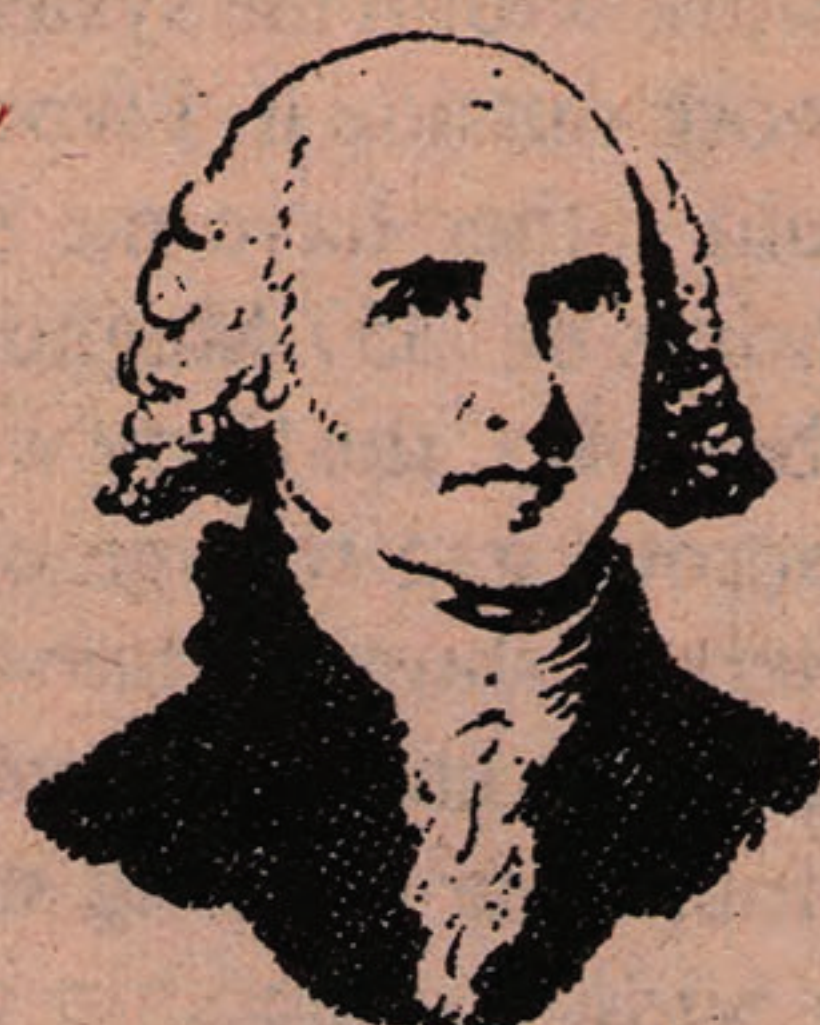

Thomas Jefferson

The greatest intellect to ever inhabit the White House, he is the ideal Aryan man: revolutionary, statesman, inventor, artist. He was the first President to actively promote repatriation of America's Negroes: "Nothing is more certainly written in the book of fate than that these people (the Negroes) are to be free; nor is it less certain that the two races, equally free, cannot live in the same government. Nature, habit, opinion have drawn indelible lines of distinction between them. It is still in our power to direct the process of emancipation and deportation peaceably and in such slow

degree as the evil will wear off insensibly, and the place be, *pari passu*, filled up by free white laborers." (Jefferson's Works, Volume 1, 1921., p. 48.)

Thomas Jefferson's "agrarian society" is practically identical to the National Socialist concept of "Blood and Soil"; i.e. re-establishing man's link to nature through decentralization of the cities and the ennoblement of the man of the soil.

"In New England, for example, one of the objections raised against the Constitution was that by prohibiting religious test it opened the door for Jews, Turks and infidels to infiltrate the government." (Jefferson) [Cecelia M. Kenyon, Men of Little Faith: The Anti-Federalists on the Nature of Representative Government, William and Mary Quarterly, Third Series, XII (1955), p. 33.]

James Madison

He thwarted encroachment into America by the British Empire which was acting as an instrument for the Jews in the House of Rothschild by opening hostilities in 1812. The war went badly, with the British burning the Capitol and Madison running the Presidency from the back of an Army horse. In these dark days of our history he never gave up hope while many were despairing of the American cause. Madison is an example of the strength and fortitude which carried our country out of the war and into victory when all seemed lost. Madison also warned of the danger of liberalism: "Democracies have ever been found incompatible with personal security and the rights of property." [The Supreme Court, R. Carter Pittam, p. 7.]

James Monroe

Although doubtlessly inspired by sincere motives, his "Monroe Doctrine" has since been used by his successors to meddle in the internal affairs of foreign nations, something which has earned the United States too many enemies abroad. National Socialists repudiate the Monroe doctrine, preferring to rely instead on a strong military for our national defense.

John Quincy Adams

He fought encroachments against freedom when ambitious businessmen sought to permanently adopt the "gag rule", whereby certain issues unfavorable to high finance could not be openly discussed. Adams, unlike twentieth century Presidents, upheld the Constitution against its enemies. On page 11 of the Chicago Jewish Sentinel for February 7, 1977, Adams describes David Levy, the first Jewish congressman from Florida, as "that alien Jew delegate"

Andrew Jackson

Perhaps more than any other American President, Andrew Jackson came closest to

being a proto-National Socialist. A real folk hero who smashed the power of the Jew banks that enslaved America, he dispelled the snobbery of a false aristocracy arising in the United States by returning to the common people as the genuine foundation of our country's greatness. His emphasis on the American worker closely resembles our racial socialism while his authoritarian Presidency is akin to our nationalism.

"Of equal importance was Jackson's own recognition of his appeal, an awareness of the identity people consciously felt toward him and his struggle. In the political battles ahead when seeking support and shaping strategy, he instinctively turned to the great mass of people, invited their approval, and reminded them that his fight was essentially theirs. His strength lay with the masses, wrote one perspective political observer, and he knew it." [Andrew Jackson: by Robert V. Remini, p. 92, Harper & Rowe Publ., N.Y.]

No equalitarian, Jackson not only owned Negroes as slaves, but traded them, and had them whipped when they got out of line. "To work his plantation, Jackson started with a few slaves which he increased in number through the years until he owned approximately 150 Negro workers. On the whole he treated his slaves decently, but when he felt punishment was needed, he had them whipped and, on occasion, chained." [p. 45, Ibid.]

He was the first American statesman to go directly to the masses and use their support to overcome his enemies in government. Jackson was a revolutionary who knew how to transmute the people's fervent support into political power for the benefit of the nation, not for the benefit of any wealthy clique. He tossed out the bureaucratic parasites in Washington and streamlined the federal government to a maximum level of thrift and efficiency, installing individual men of responsibility over corrupt committees. He was the only President to wipe out the national debt.

Martin Van Buren

An honorable man of great diplomatic skill who inherited all the abuse from the enemies of his great friend Andrew Jackson. These enemy politicians so sabotaged his Presidency that Van Buren was barely able to hold the Constitution together in one piece. A friend to the American worker, he ordered that no man should be allowed to labor more than ten hours per day on Federal projects.

William Henry Harrison

A pathetic figure who was cruelly used by the long-enduring foes of Andrew Jackson, Harrison, an honest and brave soldier, had absolutely no political sense, nor the slightest skill as a statesman. Fortunately for the nation, he died of pneumonia only a month after his inauguration. Harrison was the first man to become President who was out and out a pawn of a special interest group flaunting the will and welfare of the American people.

NSPNC Action Report

This picture of Harold Covington holding his Sheriff's Association card appeared on the front page of THE RALEIGH TIMES on January 2nd. Covington was highly amused at receiving the card, presumably by mistake, and asks in bewilderment, "Where did I go wrong?"

The National Socialist Party of North Carolina continued to pop up in the news media throughout December and January of the new year. In early December the North Carolina Civil Liberties Union informed State Party Leader Harold A. Covington that they were declining to represent him in a civil suit against his former employer, Hillhaven Convalescent Center in Raleigh, where he was fired from his job after announcing his candidacy for the Raleigh City Council in August.

The refusal indicated that increasing Jewish pressure upon the ACLU to cease representing National Socialists or face massive fund cutoffs from Jewish contributors is beginning to bear fruit. "I view the Jewish assault on the ACLU with concern," commented Covington. "This is the most serious attempt to date to cut us off from participation in the legitimate political and legal process. What the kikes don't realize is that if we cannot work within the system, we will be forced to work outside it. I wonder which the Jews would rather have me slinging at them - legal briefs or .357 Magnum slugs?"

On December 14th, the Party was the subject of a humorous gag routine on WQDR-FM's Pat Patterson show. Patterson, a well-known Raleigh radio announcer and comedian, hosts a four-hour morning show which commands a wide listenership all around

the state, especially in the university communities of North Carolina. His humor is often political and is generally aimed at such personages as the governor, the state attorney general, mayors, congressmen, and famous personalities in general. To have Patterson take a crack at someone is definitely a sign that that person has "arrived" in North Carolina.

On December 30th, Covington was made an honorary member of the North Carolina Sheriff's Association by the Wake County Sheriff Robert Pleasants, much to his surprise and Pleasants' chagrin, who apparently included Covington's name in the same list as many prominent Raleigh Democrats scheduled for the honor, evidently by accident. "If anybody in authority thinks I'm an exemplary citizen, I must be doing something wrong somewhere," complained Covington to the local press and news media. "I wish the sheriff would clue me in - where did I go wrong?"

The Party's publication, WHITE CAROLINA, is expanding into a new and public-oriented periodical to help raise funds for the Party and serve as a propaganda weapon in the Party's upcoming election campaigns. Subscriptions are now on sale at \$10.00 per year, with a single copy available for \$1.00.

Heroic Vitalism in "Star Wars"

by Gjvvaldsson

The American Jewish Power Structure has for some time considered the last vestiges of Aryan Heroic Vitalism to have been destroyed with the last dying quiver of Nazi Germany and the suppression of the philosophers they held responsible for the National Socialist phenomenon. Not true.

It is true that there no longer exists any formal government where Heroic Vitalism is sanctioned and advanced as a cultural idea. But the philosophy of Heroic Vitalism is not dead. In fact, the central idea propounded by Heroic Vitalism is an innate quality of the Aryan Racial Soul, and is manifest in the actions and beliefs of individuals and groups in most Indo-European countries. A perfect example is the resurgent National Socialist groups, and other non-political groups advancing the idea of racial health. The spirit of Heroic Vitalism will never die.

For nearly fifty years our people have been culture-starved, and their natural inclination toward the heroic values in life has been suppressed by the Jewish teaching of white guilt and shame. But holding true through this process is the eternal nature of the Jew, and his lust for money.

The prospect of money clouds the Jewish mind and distorts the Zionist effort in astounding ways. If there is a profit to be made by selling Heroic Vitalism to the white masses, the Jews will do even that. Here we are speaking of the STAR WARS phenomenon.

STAR WARS is certainly no great cultural achievement, but dangerous to the Jewish promoters is the well-developed theme of Heroic Vitalism. The idea of heroism is an achievement, though, considering who produced the picture. The only redeeming factor in this movie is the artistic license employed to mesmerize the audience, while at the same time assigning to an "evil fascist villain" the qualities of a truly dynamic and heroic warrior. This has profound psychological implications.

This shows that the Jews have no grasp of what the Aryan mind considers to be good and evil. Likewise, we have a hard time determining who the Jew producers would have us accept as the true hero of STAR WARS. They offer us several possibilities. We are presented with the wise old man as the leader of an intergalactic revolution; a young, courageous boy who seems to play no vital role; an all-American, GI Joe, bubble-gum smacking fighter pilot with the manners of a baboon; a genuine storybook, Mother Goose princess (of questionable racial origin); and several space monsters and robots with warm and cuddly personalities.

Where is the hero? Most white people recognize the charismatic Lord Darth Vader, Commander of the Imperial Storm Troopers,

to be the real hero.

Darth Vader and his Storm Troopers, with their obviously Nazi-style uniforms, are the central attraction of STAR WARS. They are supposed to represent the "evil fascist system" which subjugated the populations of many planets. This faction reflects the image of great and heroic fighters.

Everywhere we look we see Darth Vader paraphernalia: masks, costumes, glasses, toys of all sorts. Jews are selling this because there is demand for it. The white youth of America has recognized virtue in struggle, vitality in authority, and strength in power; they clearly see this in the heroic image of Darth Vader, and they want to be a part of it.

It makes no difference how Nazi-like this heroic image is, or that it is supposed to represent an "evil fascist system." White children have discounted the other wishy-washy characters as heroes. Their natural instincts have recognized true Heroic Vitalism in the patriarchal leadership, Nazi-style image of Lord Vader and his Imperial Storm Troopers.

Then the Jews make the mistake of bringing into play the concept of "The Force." This can immediately be identified with the ancient, magical imperative of the racial soul. Lord Vader admits he was a part of the Old Order, and that the power of the Force is supreme.

The Jews couldn't have done a better job of translating Heroic Vitalism into understandable terms for our white youth than by using the analogy of "The Force." The philosophy of Heroic Vitalism is difficult to understand by untrained minds who have been deprived of any exposure to it.

It's time for a definition: "Heroic Vitalism is a faith, a dynamic Weltanschauung. In application it adapts itself to the need of the moment. Its roots are in despair, therefore it despises all optimistic systems. ...It respects the fact and the masters of fact, and thereby surpasses pessimism... It is less a science of biology than a religion of meta-biology, a religion of Dionysian life and energy. Its roots are in the classical sociology which regards society as a vital organism and which compares a culture to harmonious music, a human body, a ship, or a cosmic system... It seeks to conclude the enmity in ethics of power and wisdom by locating wisdom precisely in the seizure and exercise of power itself."

"The Force" is Heroic Vitalism, and Lord Vader is the champion of heroism.

The Jews so dearly love their money they are willing to risk having millions of white youngsters exposed to the very philosophy that for centuries held the inferior races in their mud huts, crying "Lord save us from the fury of the men of the North!"

The white masses so loved their taste of

Heroic Vitalism that they paid millions of dollars to be exposed to it. And they will pay millions more as the Jews flood department stores with plastic garbage depicting the vitalism of STAR WARS.

The Jews will continue to promote

anything that pays, it is their nature. It is the nature of white men to stuff on the values they have been deprived of for so many years; we have an opportunity to make the connection for them.

Cleveland HQ Rammed by Car

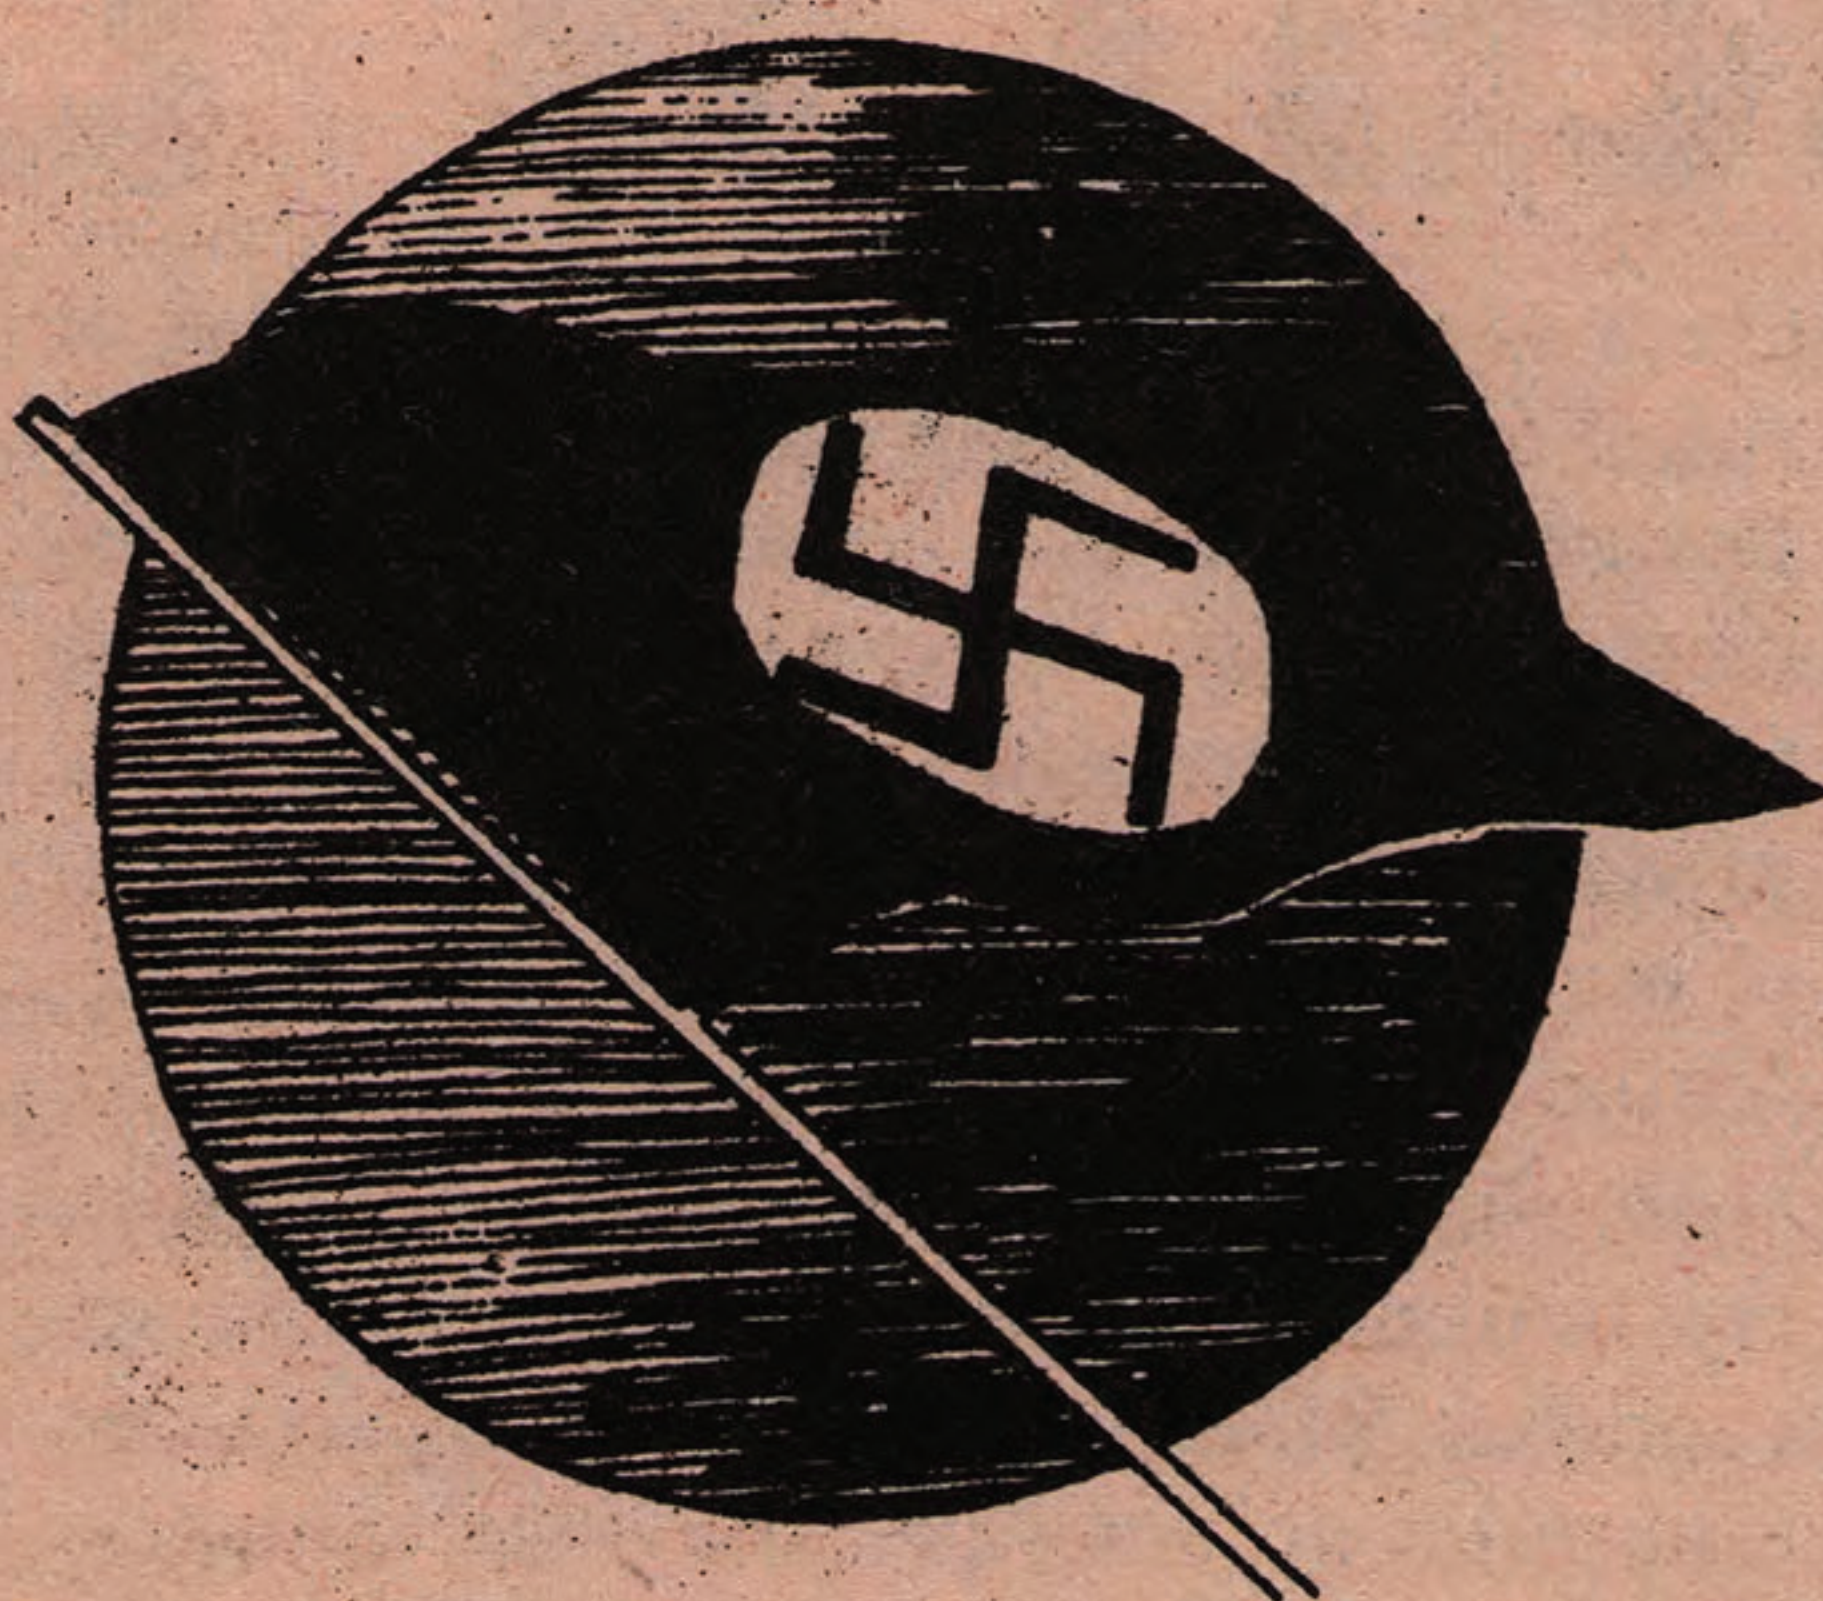

In December a phone call was made to the Cleveland Police Department stating that a bomb was going to explode in fifteen minutes and "blow the United White People's Party headquarters off the face of the earth." The streets swarmed with police cars blocking off traffic for over an hour. The area was searched and no bomb found. A few weeks later a car came down Clark Avenue at high speed and crashed into the building, causing extensive damage. A police investigation was made and reported that the car had been stolen and abandoned down the street. So instead of using a bomb this stolen car was supposed to accomplish the saboteur's task. But it was all in vain. The United White People's Party headquarters building will simply take on a new look: instead of a wooden front a well constructed brick front will be erected. Next time it'll be harder...

Cynthia Pode Defies Jews

New Party member Cynthia Pode made a dramatic appearance in Jew-infested New York City when she bravely stood up to speak out for National Socialism at a meeting between the New York division of the American Civil Liberties Union and a hostile audience of racial inferiors who opposed the ACLU's legal assistance to the Party's efforts to win back its First Amendment rights. Miss Pode scored state-wide publicity for the NSPA.

Recorded Message Causes Controversy

The controversy over Dennis Milam's recorded telephone message offering bounty to White people who dispatch non-Aryan housebreakers continues this month as a

Supreme Court Justice ruled that the message case should be heard by the lower state courts. Resulting publicity has hit all Texas, gaining new members for our comrades there. While the White Power message units are still operating, the National Socialist speakers are limited in what they can say about the brown bug-people flooding their state from the south. The case goes before the Texas Appeals Court soon.

Two New NSPA Units

The NSPA has two new probationary units, one in Philadelphia and one in Seattle. See the NS CONGRESS Affiliates list for their addresses.

White Activism in Canada

•Don Andrews' National Citizen's Alliance has succeeded in gathering 11,000 signatures for the creation of a new political party in Canada, the *Nationalist Party of Canada*. Although only 10,000 signatures are required, they are collecting many more in order to play it safe. The Communist Party has already demanded that the government simply ignore the signatures and refuse to recognize the new political party, and the black

press has warned blacks not to sign after learning that many blacks had done so out of sheer "ignorance."

•As of the press deadline of this issue, Don Andrews' trial has lasted ten weeks and is still not over. The judge ordered a direct verdict to the jury of not guilty on the charge of terrorism in connection with the 1976 Canadian Olympics, stating that the Royal Canadian Mounted police did not even have enough evidence to bring him to trial on that charge, let alone convict him. That charge had resulted in Andrews spending 18 days in jail during the Olympic games. The remaining charges are: conspiracy to commit arson, possession of an explosive substance, and conspiracy to commit mischief (painting swatikas on the home of a local Commie.)

•Since the last NS REPORT was written, another 75 new members have been recruited in a door to door membership campaign, and numerous meetings have been held.

Italian Fascist Murdered

Italian Fascist comrade and MSI candidate Angelo Pistolesi was gunned down in Rome recently. He had allegedly been implicated in the execution of a Communist last year.

German Governor Puts Foot in Mouth

Following a massive police raid in Hannover involving the search of 16 homes in mid November, the governor of the province of Lower Saxony made a speech to the local Jewish community promising that was the end of NS actions in that area. But local comrades made a liar out of him by retaliating with further NS actions, which resulted in at least two major blasts of publicity within a six week period.

Comrades throughout Germany started the New Year off right with numerous sticker, poster and paint actions.

Free Hess Action in Spain

by Michael McLaughlin
(Leader of British Movement)

On Saturday, the 24th of December, a Free Rudolf Hess demonstration was initiated by CEDADE, a Spanish pro-NS organization led by Jorge Mota. The demonstration was to take the form of a number of nationalists from various Western nations chaining themselves to the railings surrounding the US Embassy in Madrid.

Previous to this, in a campaign lasting some four weeks, running up to the grand finale at the US Embassy, teams of CEDADE comrades all over Spain placed literally tens of thousands of leaflets, stickers and posters all over Spain calling for the release of Rudolf Hess, which in itself brought a great deal of publicity. Wherever one went in the major cities such as Barcelona, Madrid, etc. walls were covered with such posters. In Barcelona, one of the city's main

avenues, named after Caudillo Franco, was festooned with a forty-foot banner calling for Hess's release.

On the 24th of December, some 50 CEDADE local activists assembled in Madrid. Among their number was the British Movement's leader, Michael McLaughlin, representing Great Britain, two French representatives, a U.S. citizen and numerous Spaniards. The absence of more representatives was due entirely to this being the first demonstration of its kind and being held at such short notice.

At 12:00 midday, nine nationalists, including the Briton, a Frenchman and the US citizen, chained themselves to the US Embassy's railings whilst others of CEDADE busied themselves in festooning the Embassy's surrounding railings and walls with FREE RUDOLF HESS posters and distributing thousands of similar leaflets to the gath-

ering crowds. Each chained person had around his shoulders a placard calling for the release of Hess written in his own language to emphasize that this was an international demonstration of solidarity for Hess.

The demonstration brought a great deal of interest from passers-by, many of whom waved and as many more gave Fascist salutes in solidarity. The demonstration was televised in many European countries and wide-ranging reports appeared in most newspapers in Europe.

After half an hour the most notorious of Spain's three police forces arrived in their vans and cars. Quickly they cut the chains attached to the rails and removed the placards and posters from our comrades' shoulders and the Embassy railings.

The comrades were all handled roughly and without ceremony were carted off to the police station. The nine arrested were hurled ingloriously into what could only be described as dungeons, all their possessions being taken from them and left only with the bare necessities of clothing. The cells were barbaric by anybody's standards and only one smelly blanket was provided for each person, a stinking sponge being the "pillow."

At 4:30am, under heavy police escort, the nine, including exceedingly pretty Maria Jose Iminiez, were taken to Madrid's notorious Palacio Judicio prison where, after being "booked in," fingerprints and mug shots taken, etc., were each placed in solitary confinement in underground cells measuring only 6 feet by 6 feet with a light burning night and day. The passage of time without watches was of little consequence. We didn't know whether it was night or day.

Christmas dinner was a cupful of evil-smelling yellow rice and a cupfull of equally evil-smelling water finished off with an orange for dessert.

Late on Boxing day, more than two days and nights of not knowing if and when we would be released, we were freed without charges being made. The press made a great play on this, implying that the Spanish authorities had handled us with kid gloves, ignoring the fact that our demonstration, quiet and peaceful, and without causing any damage, was NOT an offense in Spain; therefore, the reason that we were not charged was simply that what we had done did not constitute an

offense under Spanish law. It is thought by us that our treatment was an exercise by the Spanish Government to attempt to prove to the world that they treat all prisoners of whatever political leaning the same.

The fight will go on. A liaison group is being set up in Europe and further demonstrations are planned in all European capitals. Embassies of the United States, Britain, France - Russia, too - will all be targets for our campaign.

The White Man's Banner

by Harold A. Covington

Many times during my movement career I have heard the following argument advanced: "You guys could really get something going in this country if you'd just drop that Swastika flag. It turns people off, it makes people think of Germany and Hitler, you know - it alienates Americans. Why not something along the red-white-and-blue line? With maybe a krinkeljammer or an eagle? Or if you *must* use the Swastika then change the colors, obscure it partially behind an American flag, or something."

Sometimes the people advancing this argument do so in good faith, thinking naively that they are the first ones to come up with this brainstorm. Others do so because, being German or of German descent, they simply cannot bring themselves to accept Hitler's doctrine as something for *all* White people the world over, rather than a Teutonic monopoly. Still others do so out of more sinister motivations, for they know that in reality, far from being a weakness, the red, white and black Swastika banner is National Socialism's greatest strength.

It is our strength because because it frightens away the weak, the insincere, the dabblers and the half-hearted. Conversely, it attracts a type of individual we must have to form a successful, revolutionary movement - the brave and the dedicated. If a man is too timid or too wishy-washy to put on a Swas-

tika armband, then he certainly lacks the mettle to make the sacrifices and decisions which will be required of him as a member of the National Socialist vanguard. And anyone who persistently advocates the abolition or the alteration of the sacred symbol of our race is either faint-hearted or not really NS to begin with.

Let's look at the points in the anti-Swastika argument and deal with each in turn. The first is that the Swastika is "un-American." But we are not Americans - we are *White men*. This does not mean that we are unpatriotic or that we do not love America as our homeland, but it means that, like all National Socialists, we recognize that *our Race is our nation!* The red, white and black Swastika banner is the banner of our race.

The second argument which the Nervous Nellies advance is that the Swastika "turns people off" because "they're too brainwashed by the Jews." This is true to a certain extent, although this problem isn't nearly as acute as it was, say, twenty years ago, or even ten years ago. The older generation which fought World War Two is dying out or getting trundled off to old folk's homes, and the younger generation succeeding them are far less prone to swallow the old shopworn myths and Jewish brain-pabulum spooned out to them by Hollywood and CBS.

But a more important and germane rebuttal to the "alienation" argument is that we

are a Movement of *truth*. The triumph of Adolf Hitler's shining truth over the squalid lies of the Jews is a cornerstone of our National Socialist faith, and if we allow the pressure of the enemy's propaganda machine to stempede us into abandoning the Banner of our cause, then we will inevitably be defeated. Compromise is part and parcel of *realpolitik*, but there comes a time when the law of diminishing returns sets in and the advantages gained by a compromise past a certain point do not equal the disadvantages. The Swastika may cost us a bit of support at the polls now, (I will be testing this soon), but the way I look at it is that re-education is just as important a part of our job as racking up votes. The people must learn the truth sometime.

The final argument advanced in favor of dropping the Swastika is that it "draws heat." Nine time out of ten this is nothing more than plain, garden-variety cowardice. Do these people mean we should drop our Symbol because it upsets the Jews? Such tenderness towards our deadly racial enemies! I consider the Jews to be a race of vicious and culturally psychotic monsters and as far as I'm concerned, the more upset

they are the better. A calm, calculating Jew is the most dangerous creature in the world, but by displaying the Swastika we can almost always blow their cool and turn them into raging, gibbering maniacs in public as they let all that Talmudic hatred and vileness hang out, which is all to the good.

As for "drawing heat," all I can say is that if an activist is *not* "drawing heat," then he better find out why, because he's ineffective. A National Socialist is a soldier of his race, and a soldier must expect to draw enemy fire. If he is not willing to take that risk then he doesn't belong in the Movement.

Countless millions of our racial brothers and sisters died under the red, white, and black Banner - in the streets and beerhalls, in the Russian snow and desert sands, in the flaming ruins of Cologne and Hamburg and Dresden. Countless millions died in a tragic, misguided effort to drag that Banner down. To throw away that flag of glory out of timidity or for calloused reasons of immediate political expediency would dishonor those who suffered and those who died for our ideal and our race, and we can have no truck with anyone who would spit on all those White graves.

In Memoriam: Richard Biederman

Richard Biederman slugging it out with an enemy of the White Race. Comrade Biederman was killed in Rhodesia last December.

On December 5th, 1977, Lance Corporal Richard Biederman of the Rhodesian Army Special Air Service was killed in the African bush country near the Mozambique border. The official word was that he died in an "accident", but having served in Rhodesia myself I am aware that this generally means a man was killed in action against the black terrorists on the wrong side of the border.

Accident or not, the Movement has lost a brave and dedicated comrade. I knew Richard well, from the days when we were both National Headquarters staffers of the NSWPP in Arlington. We had our disagreements then, and later on in Rhodesia as well, but Rick's resolution and unquestionable devotion to the National Socialist cause won the respect and admiration of everyone who worked with him, as did his fighting courage in dozens of street battles in this country and countless terrorist "contacts" in Rhodesia.

Rick was a fine lad with a good fist on him, and he will be sorely missed. Farewell, comrade, until we meet again in Valhalla. *Und Ihr habt doch gesiegt!*

National Socialism A Future for the White Man

What is National Socialism?

National Socialism is a philosophy of White racial survival. It is not just a way of thinking, it is a way of life. To be a National Socialist is to look at every aspect of existence from the point of the White man's welfare and racial integrity, to examine every issue from the standpoint of its effect upon the White man and his civilization. To be a National Socialist is to think White, talk White, live White, and to do so proudly publicly.

The White man's enemies fear National Socialism, and so they seek to confuse the minds of our people with lies. They say that it is a philosophy of hate. It is not. It is a philosophy based on love: love of family, love of country, love of our magnificent race and its history and accomplishments. One cannot love what is good without hating what is bad, and we do hate those who would destroy our people and our culture. But it is a hatred which they have brought upon themselves.

What do National Socialists want?

We want a free and prosperous White America where our people can live and raise their young free of fear, free of Black crime, free of exploitation by banks and parasitic financial vampires, free of artificial debt and the curse of selfish materialism.

We want a racially sound national community without Negroids, Hispanic mulattos, ant-like Orientals, and the other assorted mud-colored scum who have invaded our country.

We want White, Aryan art, music, and drama, not the soulless and chaotic Jewish gibberings which are foisted upon us by our rulers today. We want the national communications media removed from the hands of the Jews who presently control them, and placed in the hands of the White man.

We want government by leaders, not the bought-and-paid-for political puppets and prostitutes now ruling us, who are no more than front-men for Wall Street and international Jewry.

We want a sane foreign policy, with support for our racial brothers and sisters in Southern Africa and everywhere else in the world. We want an end to U.S. complicity in the Zionist tyranny and genocidal murder now taking place in occupied Palestine.

We want a healthy, happy nation with healthy, happy people. Health and happiness are impossible in present-day society. Therefore we are going to change society.

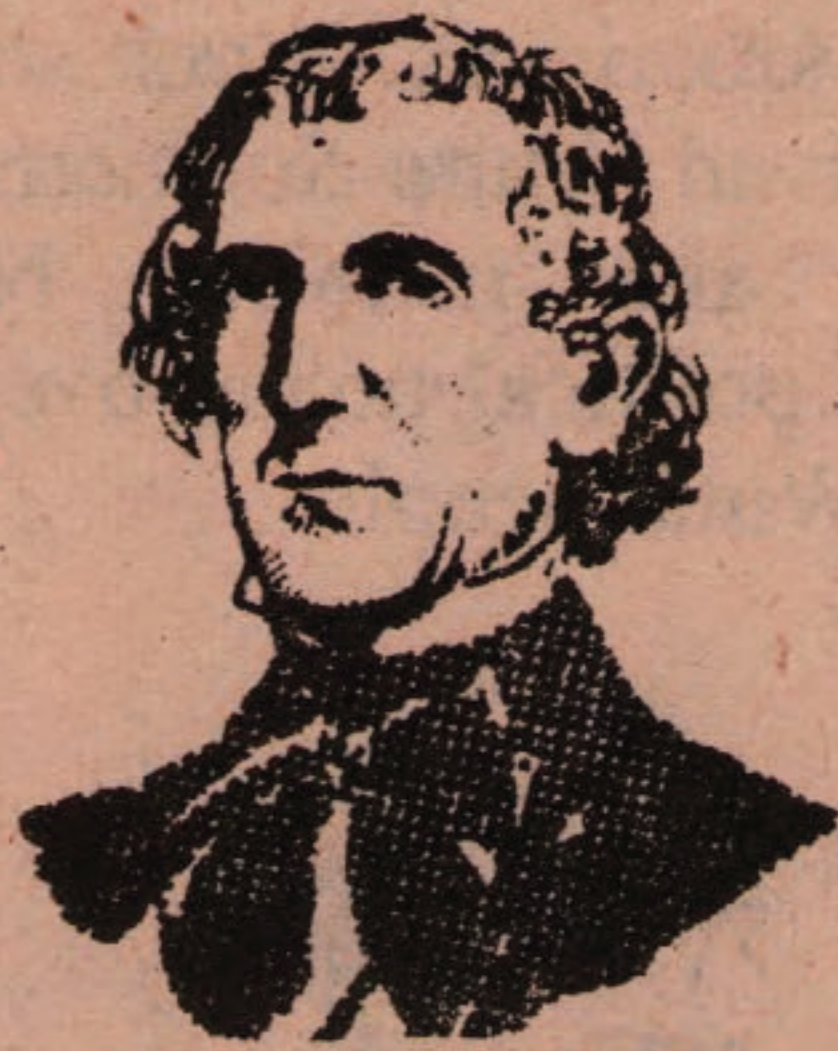

We will not be bought off. We will not be silenced. We will not be deterred. And we will win.

THE PRESIDENTS
An NS Viewpoint
(Continued From Page 1)

John Tyler

While the bankers succeeded in ruining Van Buren and installing their stooge (Harrison), their game was up when John Tyler, Vice-President to Harrison, assumed the Presidency, the first man to do so under such circumstances. When the conniving plutocrats learned of Tyler's opposition to their money power, they fought his ascension to Chief-of-State with tooth and nail. But his iron will kept him in office, thereby preserving the office of the Presidency against its wealthy enemies. He likewise paved the way for the next Jacksonian President, James K. Polk.

James K. Polk

A racial imperialist (Fascist), Polk advocated "manifest destiny," the aggressive spirit of the westward expansion which gave our people a sense of direction and greatness. He opened up the pioneer spirit of 19th Century America while he established a treasury independent of the eastern Jewish bankers. He fulfilled Jackson's dream of stabilizing our southern frontier by beating the Mexicans. In his war with the brown bug people, Polk was very much the Commander-in-Chief, taking personal charge of the conduct of the campaign.

Zachary Taylor

A terrific soldier, the respect he won throughout the nation among friend and foe alike is almost without precedent. His popularity, like that of Jackson's, demonstrated the attraction the American people have traditionally had for military leaders.

Millard Fillmore

An excellent man who was tragically crushed by the controversy of his times - the slavery issue. He was a strong nationalist and an articulate spokesman for the extreme right American Party. Farsighted, Fillmore believed that government was more than politics, and used his Presidential influence in the cause of scientific advancement. One of the scientists he assisted was Samuel Morse, inventor of the telegraph.

Franklin Pierce

A totally inept, though sincere man, Pierce's ascension to the Presidency was the work of August Belmont, his wealthy Jewish campaign manager who broke the deadlock in the Democratic Party nomination. During

his term Jewish banking power was on the rise again while poor Pierce stumbled from one blunder to the next.

James Buchanan

A decent man, he was too weak and indecisive to deal with the problem of secession and was paralyzed with inaction when Fort Sumter was bombarded.

Abraham Lincoln
The President most hated by the Jews. He frustrated their plans to divide and conquer the United States by aiding the Confederacy. Lincoln sought to free the nation's economy from Jewish gold by creating the "green-back dollar," the value of which was based on the productive capacity of the American worker. His independent money system cut America loose from the schemes of the international Jew banking houses. He further angered the Jew industrialists and demagogic politicians in the North when they learned of his plans to resettle the freed Negro slaves in Africa. They had planned to use the blacks as cheap labor (at the expense of the white worker) and as easily manipulated voting blocks. Lincoln was murdered by a conspiracy of these various Jewish factions even going so far as to send one of their own, the Jew John Wilkes Booth, as the assassin.
"I will say then that I am not now, nor ever have been, in favor of bringing about in any way the social and political equality of the black and white races, that I am not now, nor ever have been in favor of making voters

THE PRESIDENTS An NS Viewpoint (Continued From Page 7)

or jurors of Negroes, nor of qualifying them to hold offices, nor to inter-marry with the white people." [Abraham Lincoln, 4th debate with Stephen Douglas, Charleston, Ill. Sept. 18, 1858. The collected works of Abraham Lincoln, Vol. 3, p. 145, Rutgers Univ. Press, 1953, edited by Roy Basler.]

With Lincoln's death, America rounded the bend from a free, White-Aryan Constitutional government down the road to Jew domination disguised as democracy.

Andrew Johnson

One of our most heroic Presidents, he fought alone and desperately to fulfill Lincoln's economic and social plans, but was overwhelmingly opposed by the international banking interests who now almost completely control the government. The process of impeachment against Johnson had no basis in fact. Lincoln's enemies, now his, merely recognized him as the last obstacle in

their path to bloodsucking the defeated South and setting up their money tyranny in the United States. Johnson's colossal fight frustrated their plans, at least temporarily, and saved his Presidency, but his strength was broken forever.

An open anti-Semite, Andrew is quoted in the February 1977 Jewish Sentinel as referring to Judah P. Benjamin, Secretary of State for the Confederacy, as "another Jew, that miserable Benjamin." N.Y. Congressman Levy was referred to by Johnson as "that contemptible little Jew".

Ulysses S. Grant

The last of America's patriotic Chief executives, he was a failure as President, an unwitting tool of the money interests which, beginning with his administration, transformed our free, Constitutional Republic into a Jew dominated plutocracy. "The Jews as a class violating every regulation of trade established by the Treasury Department and also Departmental Orders are hereby expelled from the Department 24 hours from the receipt of this order." [Gen.

U.S. Grant, Civil War records of the U.S. Army, vol. 13, p. 35, Gen. Orders, Dept. Tennessee, order #11, Jan. 1863]

The next eight Presidents comprise a set of men completely different from those that preceded them. They were not heroes like their predecessors. They were not even statesmen, much less leaders. They were simply businessmen whose loyalty to the Constitution, they imagined, coincided with their loyalty to international high finance. In the self-revealing words of Coolidge, "the business of politics is big business." No need to wonder how the hot tempered Andrew Jackson would have reacted to that incredible blurb!

These eight Presidents represent a transition stage for America from an era when our country was led by heroes to a time when traitors sit in the White House.

Rutherford B. Hayes

Certainly the most evil man of the period from the Antebellum Era to the advent of the World War, Hayes hated the South, refused

to heal the terrible wounds of the Civil War and was fanatically intent on "punishing" the prostrate people of the South with "re-constitution," which was little more than sacking the cities and confiscating the lands of helpless Americans. Worst still, he practically deprived White Southerners of their citizenship and installed Negroes in positions of political power over the disenfranchised White people.

James Garfield

A plutocrat whose only distinction as President was to have been assassinated by a feeble-minded anarchist for no apparent reason other than that he was wealthy.

The second half of this article, covering the Presidents from Chester Alan Arthur to Jimmy Carter will appear in next month's issue of NS REPORT.

FIGHT ON STATE STREET (Continued From Page 1)

the 30 minute ride to the Palmer House we briefed ourselves on the exact manner in which we would approach the demonstration site, set up our picket line, etc. We were to demonstrate for no longer than 30 minutes which meant that we would have been on our way home by 6:05 p.m., if...

Our driver pulled up to the Palmer House right on schedule at 5:30 (We later learned the newsmen and TV showed up on time but at the wrong entrance of the Palmer House.) We noticed some rather dark, swarthy looking creatures lurking in the lobby area upon our arrival, later learning they were members of the Chicago Police Dept.'s Tactical Unit. No sooner had we stepped out of our van to begin setting up our picket line when several of the most hideous mutations you would ever see began running at us from all directions shouting "kill them" and other unprintable battle slogans. Some wore beards, some motorcycle helmets, some carried lead pipes, but all of them acted totally insane. Lopsided heads, black kinky hair, pockmarked faces with hooked noses, shark eyes and acute ugliness seemed to be some sort of prerequisite for these birds who identified themselves later as members of the Jewish Defense League. If these scum are the best Jewry has to offer, then the chosen ones are in big, big trouble.

The fight lasted all of 15 seconds, after which the kosher gladiators turned and ran away into the darkness of a nearby subway entrance, resembling rats scurrying down an open sewer cover. When the smoke cleared one fat Jew lay in the gutter of State street bleeding profusely from a nasty looking head wound. At this writing he is still hospitalized, having required brain surgery. Another tall, hulking JDL-er stood crying on the sidewalk like a baby screaming for a diaper change. The only Jew who didn't run stood holding a waste container he had picked up and tried to throw it at us. He looked sooooo silly! At that moment the detectives poured out of the Palmer House while we attempted to regroup and begin our picketing. I heard a nigger beat cop screaming at us from the street side and turned around only to look down the barrel of his service revolver which he was holding in his shaking hands. We dropped our picket signs and surrendered peacefully. The gun-wielding coon noticed the Jew with the garbage can and asked him who he was with. "I'm with the JDL," said the Jew. "Then take off," replied the cop. I knew at that point we had been "set up."

The police made all of us lie face down on the sidewalk while they searched us at gun-point. They failed, however, to arrest any of our attackers, and didn't even attempt to do so. Instead, they swore at us and confiscated our signs, helmets, and armbands. Later that evening these same police allowed an anti-Nazi picket by members of the Progressive Labor Party.

We were carted off to the first district lock-up and held there until 6 a.m. We were then moved to the infamous Cook County Jail for

a bond hearing. We were charged with aggravated battery, a felony, and bond was set at \$2000 each. Illinois law stipulates that a 10% cash bond must be posted in order to release an arrestee. The party raised the necessary funds and we were finally released after 20 hours in custody.

The next day the Chicago newspapers carried headline stories on the "additional indictments" of eight Nazis who were arrested on State Street Wednesday evening. Mr. Grossman, Jewish assistant state's attorney, rabidly told the press he intended to indict all eight of us for attempted murder and armed violence along with the previous charge of aggravated battery.

Publicizing such serious charges is intended to discourage good people who would like to join the White Revolution, but are afraid of arrest and imprisonment. This kind of tactic will backfire in the faces of the Jews. It will only weed out the weaklings in our ranks while attracting stronger people who have no fear. Of the eight men arrested, six were already veterans of several bloody street battles and consequent arrests. Only two of our men had never been through such an experience. They are now fanatic revolutionaries just like the rest of us!

Following is a brief list of NSPA legal battles presently pending. 1) Suit against the Chicago Park District for White Power Free Speech in Chicago. 2) Suit against the village of Skokie, Illinois, for passing ordinances banning the NSPA's proposed demonstration for free speech at Skokie Village Hall. 3) Suit against the FCC for not allowing the operation of the NSPA/NSDAP-AO F.M. radio station. 4) Charges of mob action against Party Leader Collin for leading a demonstration protesting the speech by "Nazi Hunter" Simon Wiesenthal in River Grove, Illinois. On that demonstration six NSPA stormtroopers were attacked by some 60 club-wielding Communists, none of whom were arrested. 5) Charges of mob action against Stormtrooper Thomas Krajewski for defending himself from attackers at the River Grove demonstration. 6) Charges of assault against Stormtrooper Harris Hunter by the Florissant, Missouri Police Dept., stemming from a demonstration in that city for White Power Free Speech. On that day ten NSPA stormtroopers were attacked by 40 Communists while peacefully picketing Florissant City Hall. 7) Charges of assaulting police chief Treutken against Party Leader Collin, stemming from the aforementioned demonstration. The warrant for Collin's arrest was issued some ten days following that demonstration, making this charge particularly outrageous. 8) Charges of attempted murder, aggravated battery, and armed violence against stormtroopers Whalen, Gaynor, Coleman, Jedry, La Rosa, Sullivan, Stasik, and Hunter stemming from the demonstration in front of the Palmer House. 9) Charges of illegal gun sales against honorary Stormtrooper Kaz Kano by the Alcohol, Tobacco and Firearms Division of the Treasury Department. Kano is a gun collector who possesses a gun

dealers license anyway, even though no illegal firearms were ever sold by Kano or the Party.

By bringing such serious charges against NSPA activists, plus denying us our basic constitutional rights. The system is waging an economic war against the movement. The ACLU agreed to represent the Party only in the free speech cases against the Chicago Park District and the Village of Skokie. All other attorney's fees and court costs must come from the pockets of NSPA members and supporters. Unfortunately, while NSPA activists do possess extreme courage of conviction and commitment, they do not possess the funds (literally thousands of dollars) required to continue this struggle unless a

massive fund raising effort is successful. While we National Socialists ask nothing for our personal sacrifices involved in subjecting ourselves to physical attack by the worst enemies of our race and nation and arrest, we do ask only for financial support in order to continue on in this White Revolution.

This, then, is an appeal to all White Americans to financially support our struggle for race and nation. We do not ask for a personal commitment. We will gladly fight and bleed for our White Race. Will you at least help us with your money? If so, please send a contribution today to: **The NSPA Legal Defense Fund, 2519 West 71st Street, Chicago, Illinois 60629.**

JOIN THE NSDAP-AO!

The NSDAP AUSLANDSORGANISATION (NSDAP-AO) is the largest National Socialist organization in Germany today. National Socialism is illegal and persecuted by the Bonn Regime in Germany, therefore the NSDAP-AO is organized (within the borders of Germany and Austria) in many underground cells. These cells work independently of one another. They are co-ordinated by and supplied with propaganda materials by the NSDAP-AO publishing facilities. These facilities are located in America where relative political freedom enables a large-scale propaganda machine.

The NSDAP-AO is waging a relentless struggle against the unjust ban against National Socialism in Germany. It strives for the reformation of the NSDAP as a legal political party with the right to participate in the "democratic" elections of West Germany and Austria. The ultimate goal is the creation of a National Socialist state in a sovereign and united German Reich.

The activity of the NSDAP-AO is international in scope. The bulk of the members are, of course, in Germany, but the party headquarters are in America, and many Germans scattered throughout the world provide support. Furthermore, many non-German National Socialists who deeply sympathize with the NSDAP-AO in its fight for a National Socialist Germany participate as official supporters and as members of the NSDAP-AO. For these comrades the NSDAP-AO publishes the NS REPORT in English and various materials in several languages. In addition it also publishes the NS KAMPFRUF, etc. in German.
